Mr. Dennis Johnson  
Illinois Environmental Protection Agency  
33 South Stolt Avenue  
Aurora, Illinois 60504

Dear Mr. Johnson:

We have discontinued any further acceptance of garbage at our North Chicago landfill site, permit number 1973-64-OP, on December 31, 1975. In consideration of the season, we request additional time to meet State standards for final closing. It is our intention to finish off the site in late spring or early summer 1976. Both the present frost and anticipated spring precipitation will inhibit our attempts for an earlier closing.

Your consideration and understanding of our position is most appreciated.

Sincerely,  
Browning-Ferris Industries  
of Illinois, Incorporated
